

Suffolk Vikings Ski Race Team

Information Sheet 8: Other Training

Introduction

As well as the Suffolk Vikings, there are many commercial organisations that provide Ski race training. These organisations are run by professional coaches who are often former racers themselves.

Please remember that all these organisations are commercial organisations, charging for their training. Whilst Suffolk Vikings work closely with many of these, and many Vikings' members attend their training, inclusion in this list is not an endorsement by the Suffolk Vikings, and likewise, do not infer anything about training that is not included in this list.
